

MY FREEZER HERO

TECHNICAL RIDER AND STAGE PLAN

Below is a list of our technical requirements. It might sound a bit formal, but it is not meant to cause any inconveniences. The goal is just to ease the work for both you (the event organizer) and us (the band). If you have any questions or if there are any issues providing any of the below mentioned, please get in touch with us before the day of the show and we will work out a solution together.

Stage setup

- 1 Drum Set
- 1 Bass Guitar and backing vocals
- 1 Electric Guitar and backing vocals
- 1 Electric Guitar and backing vocals
- 1 Main Vocals

We assume that the event organizer and a sound engineer takes care of mic'ing the instruments to their best knowledge and with their material (PA, mixer, cables, microphones...), based on the requirements of the venue. If that is not the case please contact us for further arrangements.

Stage requirements

- 4 front stage monitor (AUX1 to AUX4) for the singer and guitarists
Here we need to hear at least the main vocals and guitars
- 1 rear stage monitor (AUX5) for the drummer. **Note:** this can just be a dedicated auxiliary channel without the actual speaker as the drummer is equipped with his own in-ear system.
Here we need to hear a balanced mix of all instruments and vocals.
- 5 power strips, one for each band member

NOTE: the ideal number of front stage monitors can be adapted according to the stage size. Please get in touch with us before the show if different arrangements are required.

Equipment

drums: we assume the base drum kit is provided by the event organizer (carpet, kick, toms, hardware, throne). If that is not the case please contact us and we can bring our own kit.

The drummer brings anyways its own snare drum, kick pedal, cymbals (hi hat, 2 crash, 1 ride), drumsticks. This material is not meant for sharing with other drummers unless previously agreed otherwise.

2 guitar amplifiers: we assume 2 guitar cabinets + heads or 2 combo amplifiers are provided by the event organizer. If that is not the case please contact us and we will bring our own. This material is not meant for sharing with other musicians unless previously agreed otherwise.

1 bass amplifier: we assume 1 bass guitar cabinet + head or 1 combo bass amplifier is provided by the event organizer. If that is not the case please contact us and we will bring our own. This material is not meant for sharing with other musicians unless previously agreed otherwise.

main vocals: we assume the event organizer provides a dynamic microphone and a stand. If that is not the case please contact us and we will bring our own.

backing vocals: we assume the event organizer provides 3 dynamic microphones and 3 stands. If that is not the case please contact us and we will bring our own.
